TITLE: ELECTRONIC CIRCULATION MAIL EQUIPMENT  
AND ELECTRONIC CIRCULATION MAIL METHOD

----- KWIC -----

Abstract Text - FPAR (2):

CONSTITUTION: A mail server equipment 2 reads an electronic circulation mail document from a mail box 5 and circulates the electronic circulation mail based on a circulation list table 3. The mail server 2 sends a message inquiring the possibility of circulation before the circulation. The server 2 sends an electronic circulation mail document upon the receipt of a return message of circulation permission, registers a terminal equipment to a circulation reservation list table 4 when the return message of circulation rejection is received or a return message cannot be received for a prescribed time and reserves the circulation till the circulation request message is received.
